

# Hosted Email Archiving

powered by Greenview Data RestorEmail™

Secure Cloud Email Archiving for Business Continuity, Document Retention, and eDiscovery, with **unlimited 24/7/365 live support** included.

## Policy-Based Archiving

Set multiple retention periods with different policy filters for your organization's various needs and override filters for legal holds.

## Email Continuity

*Read and reply to email if your server goes offline.* All incoming and outgoing emails are indexed and archived in real-time and are instantly available anytime, anywhere.

## Reliable

RestorEmail uses the highly reliable, replicated and infinitely expandable Amazon cloud (AWS and S3) by default.

*"Thanks to Greenview Data's cloud archiving, we were able to continuously communicate with customers via email after a server outage."*

Curtis Hays  
Core3 Solutions

## Minimizes Compliance Risk

RestorEmail helps you meet ever-expanding State and Federal regulations; and provides security, business continuity and peace-of-mind that all your emails are archived, indexed and quickly searchable.

## Scalable and Flexible

Your RestorEmail archive can be replicated to other cloud technologies, including Rackspace (OpenStack), Google and Softlayer.

## Seamlessly Integrates with Email Hosting

RestorEmail works seamlessly with all leading email hosting systems, like MS Exchange, Zimbra and others.

## Affordable Guaranteed Protection

Starting at only \$1/month/user\*, protect your business from potential disruptions to users, servers and infrastructure level and guarantee that your business communications will continue transparently.

## Configurations

Choose from Business Continuity or Unlimited Policy-Based Archiving for full compliance. Both include our **unlimited 24/7/365 live support**.

## Business Continuity Edition

Keeps a 30-day running archive of all your incoming and optionally outbound email, fully indexed, searchable and retrievable. If your mail service is down, you can read and reply to email and even compose new messages. It requires a SpamStopsHere subscription.

## Full Archiving Edition

Archives all your incoming and optionally outbound email for document retention, eDiscovery, search and quick retrieval. Set policy filters for different retention durations and overrides for legal holds.

## Contact us anytime.

**We're always here. 24/7/365.**
