

Business Email Hosting

powered by Zimbra Email, Calendar and Collaboration Solution

Secure Business-Class Email in the Cloud with Collaboration, 30-day Business Continuity Archive and **unlimited 24/7/365 live support** included.

Secure

Built on the rock-solid VMware platform, your business email is protected in our fault-redundant data centers. Award winning Spam**Stops**Here blocks email threats in the cloud before they can harm your business.

Reliable

Industry-leading SLA-backed 99.99% uptime guarantees that your business email is available anytime - anywhere, from any device.

"Greenview's email hosting package saved us thousands of dollars and hours of time that would have been invested in deploying and maintaining an Exchange platform."

Brad H.
Professional Business Services

Boost Productivity

Communicate more effectively, collaborate with team members, coordinate calendars and share documents anywhere - anytime on any device.

Immediate ROI

No additional infrastructure or maintenance costs, no hardware or software to install, no long-term commitments or licensing fees. Low monthly pricing and yearly discounts.

Email Archiving and Business Continuity

Review and recover deleted emails with the included 30-day rolling archive. Optionally upgrade to full archiving for document retention and eDiscovery.

Built-In Protection with Spam**Stops**Here™

Rated #1 for Antispam Accuracy, Greenview's Spam**Stops**Here blocks spam, phishing scams, viruses and other email threats in the cloud, protecting your employees and your business.

Configurations

All are easy to use, fast to deploy, work with all leading email clients, like Outlook and Zimbra, and include our **unlimited 24/7/365 live support**.

Standard Edition

Includes Secure Email Hosting, Zimbra desktop and mobile webmail clients, Spam**Stops**Here anti-spam with anti-virus, TLS encryption, and RestorEmail™ 30-day Business Continuity Archiving.

Business Edition

Adds shared contacts, calendars, tasks, and documents; allowing team members to communicate more effectively and collaborate anywhere - anytime.

Professional Edition

Adds full integration with Outlook and remote device management to secure mobile devices against unauthorized access.

Contact us anytime.

We're always here. 24/7/365.
